THE COLLECTION

KELLY WEARSTLER

Global interior designer and tastemaker Kelly Wearstler is renowned for her signature brand of unexpected, bold and chic design. Her iconic and pioneering body of work encompasses interior projects, hotel design, product design, and partnerships with some of the industry's leading names. Kelly has revolutionized the look, feel and meaning of modern American living.

This new collection brings together a wealth of materials including ceramics, marble, alabaster, textured bronze, silver, gunmetal paired with cast glass, and hand selected natural stones. These various elements are deftly mixed and matched to build upon each unique architectural silhouette.

Clarity of design, integrity of materials, and an inspired blending of architectural and raw natural forms lend the collection its distinctive, iconic voice.

The eight different collections within the debut launch will be comprised of ceiling chandeliers, pendants and flush mounts, wall sconces, table and floor lamps. Each piece has the power to stand alone but can as easily be combined with additional designs within the collection to create a harmonious dialog.
